SUMMARY

Software Developer with 4+ years of experience building web applications, APIs, and fintech products using JavaScript, TypeScript, Node.js, React, and modern web technologies. Co-created ZapCart, a Lightning-powered checkout platform that won Best Breez SDK Project at Hack4Freedom Lagos 2026, enabling merchants to accept Bitcoin Lightning payments through a seamless checkout experience. Experienced in backend development, API integrations, authentication systems, payment infrastructure, and open-source collaboration across Bitcoin and Lightning Network ecosystems. Passionate about building financial infrastructure that expands access to payments, financial services, and digital commerce across Africa..

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript
- Backend: Node.js, REST APIs, Authentication & Authorization, API Design, Webhooks, Payment Integrations
- Frontend: React, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- Fintech & Payments: Bitcoin, Lightning Network, Breez SDK, Payment Infrastructure, Digital Wallets
- Tools: Git, GitHub, Postman, Agile Development

PROJECTS

ZapCart

Co-Founder & Full-Stack Developer | 2026

Lightning-powered checkout infrastructure enabling merchants to accept Bitcoin payments.

- Built backend services using Node.js and TypeScript.
- Designed APIs for payment processing and transaction management.
- Integrated Breez SDK to enable Lightning Network payments.
- Implemented checkout flows, payment confirmation handling, and transaction tracking.
- Collaborated in a cross-functional team to deliver a production-ready prototype.
- Won Best Breez SDK Project at Hack4Freedom Lagos 2026.

Nexora

Backend Developer | 2026

Payment infrastructure platform focused on solving payment challenges for Nigerian businesses.

- Designing financial infrastructure products for payments, collections, and business growth.
- Conducting product research and validating real-world payment problems.
- Developing backend architecture and API-driven workflows.
- Exploring scalable solutions for merchants and SMEs operating in Nigeria.

WORK EXPERIENCE

Software Developer & Open-Source Contributor | Freelance Present

May 2026 –

- Contributed to Bitcoin open-source projects including Bitcoin Plain Talk, Polar, and Lightning ecosystem initiatives.
- Achieved 8 merged pull requests across multiple Bitcoin-related repositories.
- Translated and reviewed 32 Bitcoin Plain Talk glossary entries, improving accessibility to Bitcoin education resources.
- Participated in issue discussions, project reviews, documentation improvements, and community collaboration.
- Co-created ZapCart, a Lightning-powered checkout solution that won Best Breez SDK Project at Hack4Freedom Lagos 2026.
- Developed reusable software solutions and technical documentation while collaborating with global open-source contributors.

Frontend Web Developer | LW INC 2025

March 2024 – February

- Built and maintained responsive web applications using React and TypeScript.
- Developed reusable and pixel-perfect UI components.
- Integrated frontend with RESTful APIs.
- Optimized application performance and improved engagement.
- Ensured cross-browser and cross-device compatibility.
- Collaborated with designers and backend engineers to deliver production-ready features.

Full-Stack Developer | Chuuse Inc

June 2022 – February 2024

- Built and maintained full-stack web applications using JavaScript and modern development frameworks.
- Developed backend services supporting authentication, user onboarding, and notification systems.
- Implemented deep linking, push notifications, and user engagement features.
- Collaborated with cross-functional teams to deliver scalable product improvements.
- Contributed to performance optimization and platform reliability.

EDUCATION

B.Eng Computer Engineering
University of Benin

2017-2023

CERTIFICATIONS & ACHIEVEMENTS

-
- Certified Nomba Developer (2026)
 - Hack4Freedom Hackathon, Best Breez SDK Project (2026)
 - Deloitte Technology Job Simulation (2025)
 - Chuuse Inc. Certificate (2022)

MEMBERSHIP AND ASSOCIATIONS

Graduate Member of the Nigerian Society of Engineers (GMNSE)
